Research & Development Center
for Cognitive Learning-Individual
Guided Education (IGE) MultiUnit
System of Elementary School
(MUS-E) Model developed in the

late 1960s under the auspice of
Herbet J. Klausmier. IGE MUS-E in
its purest application defaults to
the MOST HIGH's "PERFECT
WILL" for instructing children the
WAY-according to HIS good
purpose in CHRIST YASHAYA.
Consequently, recognizes children
are intricately created in the image
of the CREATOR, having unique
learning styles, learning modalities
and rates of learning.

Furthermore, fuels the facilitative
Christlike milieus essential for
continuous educational
improvements; as well, increased
learning opportunities. As a result,
places each child at the nucleus of

the instructional program—shifting
the bureaucracy; thereby, making it
subservient to the needs of the
"whole" child: Spiritually,
Intellectually, Physically, Socially,
therein, yielding greater academic
achievement outcomes.

FAQ

1. Does ISGE mean Disciples spend the day in isolation? Absolutely NOT! iCC Prep's Total System of Education ensures Disciples LEARN ONE ALL TOGETHER in organized modes of instruction designed to meet the needs of the individual Disciple. 2. Will Disciples become overwhelmed in ungraded-multiage learning environments? Admittedly, grouping Disciples 2-grades and 3-years apart together sounds scary to adults, but to the average child, it's the norm according to child development stages. 3. Do Disciples take NYS Standardized Test? NO! However, they do take National Standardized Test.
